I. PURPOSE

The purpose of this policy is to define the responsibilities of the school district Food and Nutrition Services Program.

II. GENERAL STATEMENT OF POLICY

The school district recognizes the role proper nutrition has in student learning. District 206 is committed to providing appropriate school breakfast programs, school lunch programs and other related food service programming. The food service program will follow state and federal guidelines when providing school breakfast and school lunch programs.

III. RESPONSIBILITY

A. The director of food and nutrition services shall be responsible for administering the food service program. This includes planning and assessing requirements, training and in-service, budgeting and financial management, and supervision.

B. The director of food and nutrition services reports to the business director, who will serve as the district administrator for the food and nutrition services program.

IV. GUIDELINES

1. The food service program will be a self-supporting program and utilize maximum reimbursements provided through various federal and state programs in which it participates.

2. The program will follow nutrient standard menu planning guidelines. Current nutrition knowledge shall also play a critical function in this process. Substitutions and accommodations to the regular meal plan will be made for students who are unable to eat school meals because of their disabilities relating to special dietary needs when the need is certified and based on a prescription written by a licensed physician, and, there is a 504 Plan in place for the student. (Rehabilitation Act of 1973, Section 504 and the Americans With Disabilities Act [ADA] of 1990).

3. The food service director will coordinate food service operations in each district building. Use of the kitchen facilities outside of the food service program must meet the established guidelines of the Use of School District Facilities and Equipment Policy #902, and the user must obtain a license for a special use permit from Horizon Public Health.
4. No sales or serving other than by the food service program will take place in the cafeteria area during the school day without prior approval of the food and nutrition director and district administration. No other organizations without approval of the food service program and district administration will be allowed to sell or serve the following items: entrees, soups, salads, sandwiches, desserts, breakfast items and other items considered meals. Other food and beverage sales during the school day may be allowed upon approval of the superintendent and considering the following conditions:

- The sales meet the legal requirements
- The sales offered by a school-sponsored organization and profits will be used to enhance specific district programming.
- The sales must meet local and state health and safety regulations and necessary permit work must be completed.

5. The food service program will strive to promote positive nutrition messages through the food that it serves for reimbursable school meals and through educational materials in the district. All food items sold through the reimbursable meal lines will adhere to the guidelines defined by USDA No. 210.11.

6. Free, reduced and paid meals will be offered to students and the food service program will follow all regulations related to this offering.

7. The food service program will offer a catering service for various district functions. District organizations and schools are encouraged to access this catering service.
